

STUDIO SPOTLIGHT: ANDREW FAULKNER

MIXED MEDIA ON WOOD

DIGITAL PAINTING

Studio E recently spoke to Andrew about what he's up to.

“Lately, I’ve been taking a break from my digital painting and working with mixed media on wood. This process is a lot like printmaking because you start with an idea—like a landscape theme—but it can evolve into something very different while you work.

I am currently using acrylic on framed wood and I like being able to work quickly with fast-drying paint and the ability to quickly reapply layers of paint. I am also having fun sanding and scratching into the paint to give texture...and adding collage material.”
